Collected Rule and Regulation 330.110 , Standards of Faculty Conduct

Bd. Min 4-27-17.

A. General

A Faculty Member at the University of Missouri assumes an obligation to behave in a manner compatible with the University's function as an educational institution. These expectations are established in order to protect an environment conducive to research, teaching, learning and service that fosters integrity, personal and professional growth, a community of scholarship, academic success and responsible citizenship. Faculty Members are expected to adhere to community standards in accordance with the University's mission and expectations.

B. Jurisdiction

1. Jurisdiction of the University of Missouri generally shall be limited to conduct which occurs on the University of Missouri premises or at University-sponsored or University-supervised functions. However, the University may take appropriate action, including, but not limited to, the imposition of sanctions under the Standards of Faculty Conduct against Faculty Members for conduct occurring in other settings, including off-campus, (1) in order to protect the physical safety of students, employees, visitors, patients or other members of the University community, (2) if there are effects of the conduct that interfere with or limit any person's ability to participate in or benefit from the University's educational programs, activities or employment, (3) if the conduct is related to the Faculty Member's fitness or performance in the professional capacity of teacher or researcher or (4) if the conduct occurs when the Faculty member is serving in the role of a University employee.
2. The Standards of Faculty Conduct applies to all Faculty Members, as defined in Section 330.110.D.1 below, at the University of Missouri. This process does not apply to conduct by academic administrators when they are acting in

their administrative, at-will role. Except as noted in Section 330.110.C below, the Standards of Faculty Conduct is in addition to and does not limit other processes and procedures for addressing conduct and employment issues, including but not limited to Research Misconduct (Section 420.010), Procedures in Case of Dismissal for Cause (Section 310.060) and Equity Resolution Process for Resolving Complaints of Discrimination, Harassment, and Sexual Misconduct against a Faculty Member (Section 600.040). A final decision on the merits in another disciplinary process precludes subsequent initiation of the Standards of Faculty Conduct process for the same allegations of inappropriate conduct.

C. Statement of Nondiscrimination and Process for Alleged Violation of the University's Anti-Discrimination Policies

The University of Missouri prohibits discrimination on the basis of race, color, national origin, ancestry, religion, sex, pregnancy, sexual orientation, gender identity, gender expression, age, disability, protected veteran status, and any other status protected by applicable state or federal law. The University's Anti-Discrimination Policies include the Equal Employment/Educational Opportunity Policy located at Section 600.010 of the Collected Rules and Regulations and the Sex Discrimination, Sexual Harassment and Sexual Misconduct in Employment/Education Policy located at Section 600.020 of the Collected Rules and Regulations. Alleged violations of the University's Anti-Discrimination Policies are within the jurisdiction of the applicable Equity Resolution Process, including Section 600.040 of the Collected Rules and Regulations, and not subject to enforcement through the Standards of Faculty Conduct.

D. Statement of Professional Ethics

(Excerpted with modification from the UM-Columbia Bylaws and the AAUP Redbook Statement of Professional Ethics)

1. Faculty Members recognize the special responsibilities placed upon them. Their primary responsibility as scholars is to state the truth as they see it. They accept the obligation to exercise critical self-discipline and judgment in using, extending, and transmitting knowledge. They practice intellectual honesty. Although Faculty Members may follow subsidiary interests, these interests must never seriously hamper or compromise their freedom of inquiry.
- 2.

3. Faculty Members neither invidiously discriminate against nor harass colleagues. They respect and defend the free inquiry of associates, even when it leads to findings and conclusions that differ from their own. Faculty Members acknowledge intellectual pluralism and strive to be objective in their professional judgment of colleagues. Faculty Members accept their share of responsibilities for the governance of their institutions.
4. As members of an academic institution, Faculty Members seek to be effective teachers and scholars. Faculty Members observe the stated regulations of the institution, provided the regulations do not contravene academic freedom, and maintain their right to criticize and seek revision. Faculty Members give due regard to their paramount responsibilities within their institution in determining the amount and character of work done outside it. When considering taking leaves of absence, permanently departing the university to pursue other opportunities, or other actions that could interrupt or end their service, Faculty Members recognize the effect of their decision upon the program of the institutions and give all due notice possible of their intentions out of respect for their colleagues.
5. As members of their community, Faculty Members have the rights and obligations of other citizens. Faculty Members measure the urgency of these obligations in light of their responsibilities to their subject, to their students, to their profession, and to their institution. When they speak or act as private persons, they avoid creating the impression of speaking or acting for their university. As citizens engaged in a profession that depends upon freedom for its health and integrity, Faculty members have a particular obligation to promote conditions of free inquiry and to further public understanding of academic freedom.
