PREFACE

On July 28, 2020, the University of Missouri Board of Curators established a Council of Chancellors (Council) and directed its members to explore these five questions while shaping a decision-making forum with an equal voice for all four universities.

1. What role and services should the University of Missouri System (UM System) provide?
2. What should be the role of the President?
3. What should be the role of the Chancellors?
4. What will be the scope of the Council, and how should it function within the parameters set forth herein?
5. What will the campus committee review, how frequently will it meet with the Council, and who will serve on it?

These questions guided weekly collaborative discussions among Council members and university leaders. Council members determined processes, expectations and a shared commitment to achieve systemwide strategic goals. This document details a proposed framework for the Council and uses the term “enterprise” to represent the UM System’s five institutions: four distinct public research universities and a health system. The full Board resolution creating this Council is on page 15 of this report.

1. ROLE OF THE UM SYSTEM AND SERVICES PROVIDED

Each Chancellor is committed to keeping their university as part of the UM System. In addition, each Chancellor will have more autonomy over their heir u21s-eo1(m)-3 p

Key Financial Decision s

The Board will continue to approve all capital projects, debt issuance, and operating budgets. The Board will consider such approval when an institution has met its established financial performance expectations. If an institution does not meet performance expectations, institution leadership will build a plan, approved by the President and the Board, to reach the established targets. An accepted plan is needed before the Board will move forward with an approval process about projects, as well as transferring assets to an institution in need.

System Resource Allocation

Investment Earnings

Each institution will receive a share of the UM System's general investment pool earnings comparable to its percentage of contribution toward the total liquidity of the enterprise.

Each Chancellor will submit a plan for Board approval describing the strategic use of these funds, which will also help direct their university's future funding.

To use the dividend, each institution will meet financial performanceD 8 >>BDC 0.004[(T)00

those already reporting to the Board of Curators: Office of the General Counsel, Secretary to the Board, and Compliance and Audit.

Performance Evaluation: Each university will offer feedback on the performance of these services as part of an annual evaluation. The leaders of the respective Systemwide Central Services will review the annual feedback, develop plans to address issues, and share such plans with the Council.

Cost Structure: The cost for these services will be allocated to each university based on its share of total operating expense or other cost dTw 122vncil.

Tier 2: Systemwide Shared Services

These services represent common administrative support functions for the enterprise and will remain the same until otherwise justified. The President, with shared oversight of the Chancellors, will direct these services.

Performance Evaluation: Each university will offer feedback on the performance of these services as part of an annual evaluation. The leaders of the respective Systemwide Shared Services will review the annual feedback, develop plans to address issues, and share such plans with the Council.

Cost Structure: The cost for these services will be allocated to each

of sponsored expenditures for the year. A formal agreement among the collaborating universities will outline such a distribution.
